Taking Photographs

Photography is a way of taking a picture using a camera.

- There are many different photography devices (things that we can take photographs on). E.g. smartphones, digital cameras and tablets.
- There are also many different subjects we can take photos of: e.g. a selfie, an action shot, or a beautiful scene.

How to take a photograph

1. Hold the camera firmly with both hands
2. Point the camera at the subject.
3. Look at the viewing screen.
4. Move the device to get the shot that you want.
5. Press the capture button.

Choose landscape or portrait
