## Key Vocabulary

|                |                                                          |
|----------------|----------------------------------------------------------|
| Product        | Something that is made for a specific use                |
| Purpose        | The reason something is made                             |
| Sew            | To sew is to join together with a needle and thread      |
| Seam Allowance | The gap between the edge of the fabric and where you sew |
| Pattern Pieces | A section of fabric that is part of your overall piece   |
| Decoration     | Adding things to improve it's appearance                 |

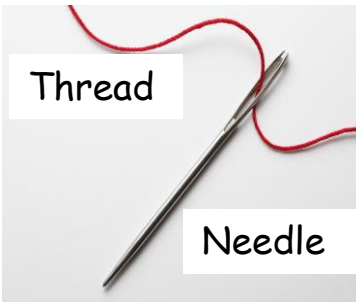

Felt

Running Stitch

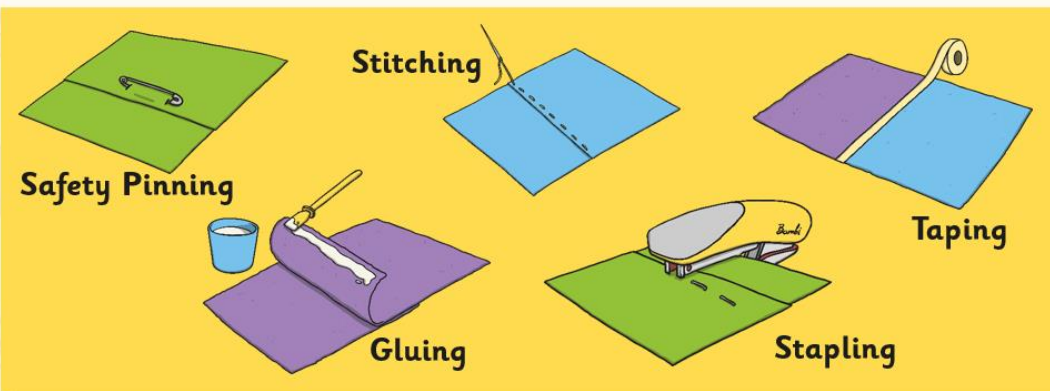

To make a 3D puppet, you need to join two identically shaped pieces of fabric together.

Thread

Needle

## Joining Fabrics

## What is a hand puppet?

Hand Puppets are worn over the hand. These puppets are made from fabric and controlled by the hand that fits into it. Fingers fit into the head and arms of the puppet allowing a person to control its movement
